

NV5 PROVIDES THE EXPERTISE TO PLAN, DESIGN AND BUILD THE INFRASTRUCTURE THAT LINKS OUR COMMUNITIES TOGETHER.

Our clients trust us to provide the integrated engineering, consulting and management solutions that enable their success – regardless of project size or complexity. We offer value solutions for public and private infrastructure, real estate and the environment. Clients include federal, state, municipal and local governments, as well as private property owners and quasi-public agencies for the fields of education, healthcare, energy and utilities. Our objective is to become an internationally recognized leader in each of our five service verticals: Construction Quality Assurance, Infrastructure, Energy, Program Management and Environmental.
